EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Colene H. Blank on September 1, 2004.

The application has been amended as follows:

Claim 8, section (b), line 5, after "surface", the phrase - - ; wherein the hot melt adhesive layer is adhered to the imageable surface of the imageable component. - - has been added.

Specification, as originally filed, page-1, before line-1, the phrase - - This is a continuation of application serial No. 09/094,896, filed on June 15, 1998, now abandoned, titled MULTICOMPONENT UNIDIRECTIONAL GRAPHIC ARTICLE, which is incorporated herein by reference. - - has been inserted.

Abstract, as originally filed, from line 8 to the last line, the phrase "The attachment component...and the substrate" has been deleted.

Double Patenting Rejection Withdrawn

The rejection of claims 1-24 and 31-35 under the judicially created doctrine of double patenting over Application Serial No. 09/098702 for reasons of record in the

Office Action of November 21, 2002 has been withdrawn in view of said being abandoned.

2. The following is an examiner's statement of reasons for allowance:

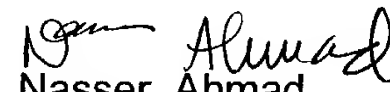

A review of applicants' arguments in amendment filed on May 20, 2004 and a review of the instant pending claims has convinced the examiner that the claims are allowable over the applied prior art of record. The prior art fails to teach or suggest the claimed graphic article wherein the attachment component of substantially transparent, continuous polymeric layer has a layer of substantially transparent, hot melt adhesive on its second major surface and a layer of pressure sensitive adhesive on its first major surface, and that said hot melt adhesive is adhered to the image layer on the imageable component. Also, no evidentiary support could be provided to support the position that the instant claimed invention would have been obvious to one having ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nasser Ahmad whose telephone number is 571-272-1487. The examiner can normally be reached on 7:30 AM to 5:00 PM, and on alternate Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Harold Pyon can be reached on 571-272-1498. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
